| Core Configuration       | Conversation Topics   | Tools & Knowledge           |
|--------------------------|-----------------------|-----------------------------|
| System prompt (GPT-4.1)  | Policy Lookup         | Work IQ knowledge grounding |
| Generative orchestration | Draft Response        | HHSRS Escalation Tool       |
| Microsoft Entra ID auth  | Escalation            | Work IQ User MCP            |
| Adaptive Card responses  | Onboarding   Fallback | Work IQ Copilot MCP         |

IQ LAYER

**Work IQ — Microsoft**

Semantic retrieval engine  
Citation engine (document + section reference)

**Work IQ User MCP (Preview)**

**Work IQ Copilot MCP (Preview)**

**SharePoint Knowledge Base**

14 policy documents across 5 service areas  
Structured folders for semantic retrieval

Housing & Repairs

Planning

Environmental Svcs

Benefits & Council Tax

HR & Compliance

ACTION LAYER

**Power Automate — HHSRS Escalation Flow**

| Trigger                                                                             | Action                                                                    | Response                                                                       |
|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------|--------------------------------------------------------------------------------|
| Activated when HHSRS Category 1 criteria are detected in the officer's conversation | Posts a structured Adaptive Card to the Housing Escalations Teams channel | Returns an ESC-reference number confirmation back to the officer in Teams chat |

■ Microsoft Entra ID authentication throughout — user-level SharePoint permissions respected at every layer — no data leaves the Microsoft 365 tenant
